

Ciprofibrate capsules

Ciprofibrate 100mg Tablets

- **Drug description :**
Each tablet contains 100mg ciprofibrate as the active ingredient.

Presentation :

Tablet. White to off white capsule shaped tablets with a breakline on one side and embossed 'S170' on the other

- **Indications :**
Ciprofibrate 100mg tablets are recommended for the treatment of primary dyslipoproteinaemias, including types IIa, IIb, III and IV (hypercholesterolaemia, hypertriglyceridaemia and combined forms) - refractory to appropriate dietary treatment.

Dietary measures should be continued during therapy.

Adult Dosage :

Adults

The recommended dosage is one tablet (100mg ciprofibrate) per day. This dose should not be exceeded (see Precautions).

Use in Case of Impaired Renal Function

In moderate renal impairment it is recommended that dosage be reduced to one tablet every other day. Patients should be carefully monitored. Ciprofibrate 100mg tablets should not be used in severe renal impairment.

- **Child Dosage :**

Use in Children

Not recommended since safety and efficacy in children has not been established.

Ciprofibrate 100mg tablets are for oral administration only

- **Elderly Dosage :**

Elderly Patients

As for adults, but see Precautions and Warnings.

Contra Indications :

Severe hepatic impairment.

Severe renal impairment.

Pregnancy and lactation.

Concurrent use with another fibrate.

Hypersensitivity to the active substance or to any component of the product.

- **Interactions :**

* Contra-indicated combination

Other fibrates: As with other fibrates, the risk of rhabdomyolysis and myoglobinuria may be increased if ciprofibrate is used in combination with other fibrates.

* Not recommended combinations

HMG CoA reductase inhibitors: As with other fibrates, the risk of myopathy, rhabdomyolysis and myoglobinuria may be increased if ciprofibrate is used in combination with HMG CoA reductase inhibitors. The benefits of combined use should be carefully weighed against the risks. Physicians contemplating concomitant therapy with HMG CoA reductase inhibitors should consult the of the relevant HMG CoA reductase inhibitor as some higher doses are contraindicated / not recommended with fibrates.

* Combination requiring caution

Oral anticoagulant therapy: Ciprofibrate is highly protein bound and therefore likely to displace other drugs from plasma protein binding sites. Ciprofibrate has been shown to potentiate the effect of warfarin, indicating that concomitant oral anticoagulant therapy should be given at reduced dosage and adjusted according to INR.

* Combination to be taken into account

Oral hypoglycaemics: A possible interaction should be considered.

NOT FOR RELEASE, DIRECTLY OR INDIRECTLY, IN THE UNITED STATES OF AMERICA, AUSTRALIA, CANADA OR JAPAN.

This document includes statements that are, or may be deemed to be, "forward-looking statements". These forward-looking statements can be identified by the fact that they do not only relate to historical or current events. Forward-looking statements often use words such as "anticipate", "target", "expect", "estimate", "intend", "expected", "plan", "goal" believe, or other words of similar meaning. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances, a number of which are beyond Company's control. As a result, actual future results may differ materially from the plans, goals and expectations set out in these forward-looking statements. Any forward-looking statements made by or on behalf of the Company speak only as at the date of this announcement. Save as required by any applicable laws or regulations, the Company undertakes no obligation publicly to release the results of any revisions to any forward-looking statements in this document that may occur due to any change in its expectations or to reflect events or circumstances after the date of this document. The securities referred to herein have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States or to US persons unless the securities are registered under the Securities Act, or an exemption from the registration requirements of the Securities Act is available. No public offering of the securities will be made in the United States. This communication is being distributed only to and is directed only at (a) persons outside the United Kingdom, (b) persons who have professional experience in matters relating to investments, i.e., investment professionals within the meaning of Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order"), and (c) high net worth companies, unincorporated associations and other bodies to whom it may otherwise lawfully be communicated in accordance with Article 49 of the Order (all such persons together being referred to as "relevant persons"). The securities are available only to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such securities will be available only to or will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this communication or any of its contents.

About Taj Pharmaceutical Limited

Taj Pharmaceuticals Limited is a pharmaceutical company founded and based in India. The company manufactures pharmaceutical formulations and API for India and other countries of world. The company was established in 1995 as an enterprise and in 2004 became a public limited company. As per Mumbai pharmaxil and Chemixil association the company manufactures and exports to countries like Albania, Argentina, Austria, Chile and Iraq. In 1995 pharmaceuticals wing only has a schedule M certification for pharmaceuticals products manufacturing in India. Taj Pharmaceuticals established its manufacturing unit in Gujarat because of government policies in 1999 with WHO / GMP licence. The company in 2003 revived all the old manufacturing units and approached the FDA Gujarat for 4000 new pharmaceuticals drug permissions for the first time in India.

According to the Indian Trade Mark the company owns about 450 brands and 4600 generic manufacturing permissions in India. According to the export data analysis the company was the largest exporter of generic medicines to the Europe and Middle East countries.

www.tajpharma.com

The company medicines are present in France, Georgia, Egypt and CIF countries.

Taj Pharmaceuticals Limited (the "Company") believes that the information included in the Investor Relations section of this website was correct at the time it was added to the website. However, the Company expressly disclaims any duty to update the information on the website and makes no representation or warranty as to accuracy and completeness of the contents of this Investors Relations section of the website or any other section of the website. Access to and use of the information on this website is at the user's own risk. The Company assumes no responsibility for any errors or omissions in the content of this website and disclaims any liability for damages of any kind (whether direct, consequential or punitive) arising out of the use of this website or the information contained on the website or on links to or from this website.

The Investor Relations section of this website contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical facts, included on this website regarding the Company's strategy, expected future financial position, results of operations, cash flows, financing plans, discovery and development of products, strategic alliances, competitive position, plans and objectives of management are forward-looking statements. Words such as "anticipate," "believe," "estimate," "expect," "intend," "plan," "will" and other similar expressions help identify forward-looking statements, although not all forward-looking statements contain these identifying words. In particular, any statements regarding the Company's financial results and outlook, the continued implementation of the Company's strategic plan, the development of the Company's pipeline, the commencement of Phase 3 clinical trials for Puricase (pegloticase) are forward-looking statements. These forward-looking statements involve substantial risks and uncertainties and are based on current expectations, assumptions, estimates and projections about the Company's business and the biopharmaceutical and specialty pharmaceutical industries in which the Company operates. Such risks and uncertainties include, but are not limited to, the delay or failure in developing Puricase (pegloticase) and other product candidates; difficulties of expanding the Company's product portfolio through in-licensing or acquisition; not being able to manufacture commercial quantities of our products; not gaining market acceptance sufficient to justify development and commercialization costs if our products are approved for marketing; introduction of generic competition for API; fluctuations in buying patterns of wholesalers; potential future returns of API or other products; the Company continuing to incur substantial net losses for the foreseeable future; difficulties in obtaining financing; potential development of alternative technologies or more effective products by competitors; reliance on third-parties to manufacture, market and distribute many of the Company's products; risks of maintaining protection for the Company's intellectual property; risks of an adverse determination in any future intellectual property litigation; and risks associated with stringent government regulation of the biopharmaceutical and specialty pharmaceutical industries and other factors set forth more fully in certain reports filed with the Securities and Exchange Commission, to which investors are referred for further information. The Company may not actually achieve the plans, intentions or expectations disclosed in its forward-looking statements, and you should not place undue reliance on the Company's forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements that the Company makes. The Company's forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments that the Company may make. The Company does not have a policy of updating or revising forward-looking statements and assumes no obligation to update any forward-looking statements.
