(IV) BULK DRUGS.

(V) COSMETICS & BEAUTY PRODUCTS.

(VI) VETERINARY PRODUCTS.

(VII) FULLY EQUIPPED, ULTRA MODERN IN-HOUSE TESTING LABORATORIES.

OUR CHAIRMAN

Dr. R. K. SINGH, Chairman, TAJ PHARMACEUTICALS LTD, has an exposure to International business of approximately a decade and has successfully established ramifications and marketing network with various powerful business allies and Trade Partners the world over. His vision and marketing skills have been greatly instrumental in the rapid and stupendous growth of the Organization in such a short span of its existence. Additionally his in-depth knowledge of the domestic market helps the Company in making a dent into the Indian markets aggressively.

TPL, STRIVING FOR SUCCESS

At **TPL** our goal is to create innovative drugs and diagnostic tools for the medicine of tomorrow. Rapid progress in the sciences is providing crucial insights into the underlying molecular mechanisms of disease, opening up new ways for prevention, diagnosis and therapy. With the expertise in Diagnostics and Pharmaceuticals, **TPL** is best placed to capture the value from the Healthcare Revolution.

The future will be shaped by fundamental paradigm shifts ushering in a new era of more effective medicines. Diagnosis, prevention and treatment will be linked more closely than ever before in integrated strategies offering patients and healthcare providers highly focused, individualised care. We are confident that, with our outstanding workforce, cutting-edge science and state-of-the-art technology base, we can meet tomorrow's needs for integrated healthcare solutions.

TPL's commitment to meeting the highest standard of excellence in all our research activities, including genetic research, extends beyond current national and international regulations. Living up to these standards is one of our key concerns. To define the standards that govern genetic research, **TPL** has drawn up the Taj Pharmaceuticals Charter on Genetics in collaboration with internationally recognised experts. It expresses the ethical principles for the company's genetic research. The Charter affirms the principles of respect, autonomy, beneficence and equity as proposed by the World Health Organisation.

PARTNERING WITH TPL

TPL is now a valued partner to more than 60 companies worldwide.

We recognize that no one company has a monopoly on innovation. It is our job to find the best breakthroughs in modern medicine - wherever they are - and to bring them to patients as quickly as possible.

We have learned through our alliances that success in this business is much more than the deal itself. For both sides, real rewards come through partnerships that work in the long run - that means transforming deals into success.

We are aspiring for an enviable position in the global markets to be achieved in the quickest time frame and our clout in the Overseas Sectors provide us enough confidence in achieving the projected targets. Prospective business associations, especially with our Partners in European, South African, Latin American, Far East, C.I.S. Countries and Gulf Sectors, provide us ample potential in achieving this objective.

CUSTOM SYNTHESIS

TPL offers customized products on the basis of advanced chemical synthesis capabilities. With tried and trusted regulatory expertise and experience together with notification procedures in foreign countries, our experts offer customers a complete package in developing data to meet regulatory requirements.

Updated and upgraded with the latest technology, **TPL's** Plant is designed to handle wide ranging synthetic reactions such as:

- Nitration
- Bromination
- Acylation
- Chlorination
- Condensation
- Alkylation

RESEARCH AND DEVELOPMENT

R&D Division is ever active in Research and Developmental activities, especially in the areas of Ayurvedic & Herbal products which will act in the treatment of diseases which world today considers as incurable. As a result, we have invented Ayurvedic medicines which are proved to have total healing properties for diseases such as :

1) Jaundice (Hepatitis A & B) 2) All kinds of children's disorders 3) Infection in kidney 4) All kinds of anemia 5) Blood-related complications 6) Thyroid 7) Renal failure 8) Virus infections 9) Cancer 10) Tuberculosis 11) Medicines that provide soothing effect to HIV-affected patients, etc.

GROWTH HORMONE MILK POWDER

The world over, there is, undoubtedly, a dire need for a product that can be reckoned as an assured adjuvant in the process of growth of infants, children, adolescents and youth till the age group of around 25 years. As on date, there may be few medicaments in injection form which are presumed to have some attribute in this regard. We can assert with pride that we have developed an exclusive milk-related Formula, into which certain Growth Hormones are introduced, a process which is the outcome of prolonged Research and Development of our Company and achieved with the assistance of our Overseas Research & Development Allies. The concept is quite unique and we are proud to be the pioneers in it, an area where no other company in the world has ever ventured. We can challenge on its highly positive and salutary results, when administered to the child right from the stage of infancy for a prescribed duration of time. It is satisfying that the product has the endorsement of the Central Government.

The Company is also engaged in the developmental process of innovative products such as 'TAJ Growth Hormone Baby Milk Powder, Infant Milk Substitute, TAJ Herbal Milk, Nutritional supplements, etc. which are in the stage of conceptualization.

Our Trade Mark Registration Division is presently engaged in complying with requisite formalities of getting the brands registered with the Registrar of Trade Marks.

SERVICES

Warehouse : A well-maintained temperature controlled warehouse is used to store materials as per GMP requirements.

Utilities : Considering the varied requirements of reactions, provisions are made for temperatures between -250°C to 2500°C . Furthermore, a nitrogen generation unit is housed with other conventional utilities required for bulk drugs plant.

HEALTH, SAFETY AND ENVIRONMENT

As a responsible corporate citizen espoused to the cause of a better quality of life, **TPL** accords high priority to Safety, Health and Environment. We are committed to protecting the environment we operate in, and ensuring the health and safety of our employees and stakeholders.

With a basket including personal care, health care and other products, **TAJ GROUP** has set up Group Companies across the world that can manage its businesses more efficiently. Given the vast range of products, sourcing, production and marketing have been divested to leading group companies that conduct their operations independently.

OUR MOTTO

TPL's dream is to provide medicines to the common man at really affordable prices and we have ensured that the pricing aspect is done with utmost care, maintaining the profitability aspect at possible low.

TPL offers one of the widest spectrum of products in Pharmaceuticals, Herbal/Ayurvedic, Nutraceuticals, Health Care, Hygiene and OTC ranges, which offers our Associates ample scope for unlimited growth.

It is **TPL's** endeavor to reach every product of the Company to the length and breadth of the Country and the globe at large and make **TPL** a household name within the shortest possible time.

NOTE : While the Product List is exhaustive, **TPL** does not stop, but is really geared up for expansion to multifarious areas, where service to humanity is called for. Current Product List is enclosed.

(Joy Kurian)
Chief General Manager

“We, at TPL, attribute utmost value to human life and as a Pharmaceutical Organization with world-wide standing, our ambition is to make a unique contribution to better human healthcare. We aim to reduce suffering and improve health and quality of life of people all around the world. Our roots firmly based overseas, we have pursued this mission with patience, dedication, imagination and skill, for over a decade. Our vision is to make medicines available even to the remote rural areas of the developing and underdeveloped countries, at really affordable prices. We reckon this a mission to be accomplished, an obligation to be fulfilled towards humanity at large.”

OUR COMPANY IS COMMITTED TO THE WELFARE OF HUMAN-BEING.

We are working towards the noble cause, i.e. free supply of medicines to the poor and war affected countries.

- ▶ We will consider the world our market, and make international quality standards our obsession.
- ▶ We will maintain customer-friendly prices and proudly participate in securing India's rightful place in the global economy, all through total commitment of each member of TAJ family.
- ▶ A global marketing organization that understands and responds to the needs of the customer.
- ▶ An organizational culture that is relentlessly focused on the speedy translation of scientific discoveries into innovative products that make a significant difference in people's lives.
- ▶ A workplace that will attract, energize and help retain the finest talent available.
