TAJ PHARMACEUTICALS LTD.

HGH/191 Amino Acid Sequence HGH

Humogen®

[somatropin (rDNA origin) for injection]

Human Growth Hormone

Available as: 4 i.u. /16 i.u.

Saizen growth | Normal growth

It is a purified growth hormone (GH) of recombinant DNA origin that stimulates skeletal, linear bone, muscle, and organ growth.

Saizen means Growth

It promotes growth by inducing hyperplasia. It acts on cell surface receptors present on all cells. Binding of GH molecule to the extracellular domain of two growth hormone receptors induces their dimerization and activates intracellular domain through a single transmembrane peptide segment.

Saizen® is The registered Trademark of Taj pharmaceuticals Ltd., India

GROWTH HORMONE DELIVERY

FOR EXPORT:
