ASCARDILL™ is a low dose aspirin that helps prevent blood clotting and reduces the risk of heart attack and stroke in patients with blood vessel disorders. Low dose aspirin helps reduce blood stickiness, the tendency of blood to clot.

ASCARDILL™ is used to help protect against some of the problems which can be caused by clotting in the blood stream.

ASCARDILL™ may be useful if you are at risk of coronary artery disease, angina, transient ischaemic attacks (TIAs or mini strokes), stroke (due to a blood clot) or heart attack.

ASCARDILL™

Aspirin 75mg/150mg + Glycine 37.5/75mg

Slow absorption gives maximum Anti-Clotting effect.
