

Neurovital Forte®

Neurovital Forte®

Each film-coated tablet contains

Composition

Thiamine Mononitrate I.P.....	10 mg
Riboflavine I.P.....	10 mg
Pyridoxine Hydrochloride IP.....	3 mg
Cyanocobalamin I.P.....	15 mcg
Nicotinamide I.P.....	45 mg
Calcium Pantothenate I.P.....	50 mg

Each 3ml Injection contains

Composition

Thiamine Mononitrate I.P.....	100mg
Riboflavine I.P.....	5mg
Pyridoxine Hydrochloride IP.....	100mcg
Cyanocobalamin I.P.....	1000mcg
Nicotinamide I.P.....	100mg
D-panthenol I.P.....	50mg
Benzyl alcohol I.P.....	1%w/v (as preservative)
Water for injection I.P.....	qs

Indications

It may be useful in the nutritional management of patients during prolonged convalescence associated with major surgery. It is also indicated for stress conditions, as an adjunct to antibiotics and diuretic therapy, pre and post operative cases, liver conditions, gastrointestinal disorders interfering with intake or absorption of water-soluble vitamins, prolonged or wasting diseases, diabetes, burns, fractures, severe infections, and some psychological disorders.

Description

NEUROVITAL FORTE has a multivitamin nature, it provides Thiamine pyrophosphate (TPP) the active form of thiamine, serving as a coenzyme in a variety of reactions, particularly in carbohydrate metabolism.

The antioxidant activity of riboflavin is principally derived from its role as a precursor of FAD and the role of this cofactor in the production of the antioxidant reduced glutathione. Nicotinamide is required for lipid metabolism, tissue respiration, and glycogenolysis. Niacinamide is incorporated into the coenzymes.

Dosage

One tablet daily or as directed by the physician.
