

**Alfuzin<sup>®</sup>**  
Alfuzosin Hcl

## Alfuzin Tablets

Each tablet contains Alfuzosin hydrochloride (extended release) 10mg

### **Indications**

Alfuzosin is used to treat symptoms of benign prostatic hyperplasia (BPH, enlarged prostate) such as frequent, urgent need to urinate during the day and at night, weak urine stream, and difficulty urinating. Alfuzosin is in a class of medications called alpha-1 blockers. It works by relaxing the muscles in the prostate and bladder neck to allow urine to flow more easily.

### **Description**

Alpha blocker drug ,relax the muscles in the prostrate gland and the neck of the bladder. This allows the urethra to open wider so that urine flows more easily.

### **Contraindications**

Alfuzosin should be used with caution in patients with severe renal insufficiency, and should not be prescribed to patients with a known history of QT prolongation or to patients who are taking medications known to prolong the QT interval (term related to cardiology). Alfuzosin should not be used in patients with moderate or severe hepatic insufficiency, (Childs-Pugh categories B and C) since alfuzosin blood levels are increased in these patients. Alfuzosin should not be co-administered with potent CYP3A4 inhibitors such as ketoconazole, itraconazole, and ritonavir, since alfuzosin blood levels are increased. Alfuzosin is contraindicated in patients known to be hypersensitive to alfuzosin hydrochloride or any component of Alfuzosin tablets.

### **Does Prostate Massage Promote Prostate Health?**

What does prostate massage have to do with prostate health?

What if someone told you that they would give you the absolute best liquid to heal your prostate? A liquid so healing and so powerful that nothing else in all of medical history has ever been able to compete with it? A liquid that is non toxic, and a liquid that is responsible for every cure that ever was?

### **Side effects**

The most common side effects are dizziness (due to postural hypotension), upper respiratory tract infection, headache, and fatigue.

**Presentation:** 10 tablets  
Alfuzin Blister pack of 10 capsules
