### Indications

Useful in all kinds of Hepatitis virus infections.

### Description

Lavang is Stimulant and effective in relieving flatulence, cholera, caughs, asthma and headaches. Cloves promote enzymatic flow and boost digestive functioning. It is also useful for treating cholera, 4 gms of cloves are boiled in 3 litres of water until half the water has evaporated, taken in draughts, will check severe symptoms of the disease. Chewing a clove with a crystal of common salt eases expectoration, relieves the irritation in the throat and stops cough in the pharyngitis. A paste of clove and salt crystals in milk is a common household remedy for headaches

### Dosage

Children 2-12 yrs.:1 spoon with water at a time, 3 Day.

### Presentations

100 ml.
