Descriptions

All-natural nourishing preparations for scalp and hair combines essential oils, and herbal oil extracts traditionally used to treat hair conditions. Moisturizes and lubricates scalp, helps reduce hair loss and reverse insufficient growth, helps combat flaking, dandruff and seborrhea. Provides scalp and hair follicles with nutrients and herbal constituents to restore and stimulate metabolic processes.

Use hair tonic before the hair wash to nourish and groom the hair. Apply generously and massage tonic into the scalp with light circular movements starting with the back of the head. Cover the hair with shower cap and/or towel. Let tonic work for 1/2 to 2 hours, staying in a warm place. Shampoo the hair and thoroughly with regular water, followed by rinse with distilled or spring water. For best results rinse or immerse the hair for 10 -15 min in a herbal rinse Floraderm I.

Use hair tonic regularly, preferably every day to reverse dry scalp conditions, help revive thin, dull, brittle hair. If used after hair wash, dry hair with the towel leaving slightly damp hair. Apply minimal amounts of tonic to the scalp with fingertips or cotton swab and gently massage into the hair roots.
