

# Look's Mud Pack With Herbal ®

## Look's Mud Pack With Herbal ®

### Compositions

Multani Mitti

### Indications

Improves blood circulation and adds glow to the skin.

### Descriptions

Herbal Face Packs are a very special blend of exotic Oriental Clays, efficacious herb oils, and herb extracts in a very emollient, moisturising and hydrating base which provides the vehicle for the herb-extracts to reach the deep dermal layer of the skin and perform their action, thus giving a long lasting treatment from within the skin. The exquisite balance of ingredients in the Face Packs makes them perform immediately and gives miraculous results that are long lasting. They adsorb and absorb excess sebum, open the pores, detoxify the skin, iron out the unevenness on the skin, stretch away wrinkles and leave the skin smooth, tight and fresh. The herb extracts perform their specific function while the mask dries on the face.

### Method of use

Wet face. Apply the Pack and gently massage on till a thick layer is formed. Let dry without flexing the face too much. The Face-Pack will declog the pores, clean them and open them and the waste products, sebum, grime and other pore-blocking substances will be cleared from the skin and adsorbed by the clays. The smoothing & detoxifying action of the pack will come into play while the Mask is drying on the face. Once this procedure is complete, the moisture vehicle in the Pack will carry down the effective herb-extracts to the deep dermal layer through the opened & declogged pores so that the requisite work can be performed by these extracts from within the skin.
