Chloride 750mg, methyl sulphonyl methane 200mg, manganese sulphate 3mg, sod borate 0.5mg, zinc sulphate 3mg, copper sulphate 1.5mg, Glucosamine sulphate pot. Chloride 500mg, eicosapentaenoic acid 90mg, docosahexaenoic acid 60 mg, Glucosamine sulphate pot. 500mg, vit E 8mg, vit C 50mg, Glucosamine sulphate 250mg, chondroitin sulphate 200mg, Glucosamine sulphate 750mg, methyl sulphonyl methane 250mg, methylcobalamin 750mg, Glucosamine sulphate 500mg, methyl sulphonyl methane 200mg, Glucosamine sulphate 1000mg, methyl sulphonyl methane 200mg, Each strip contains Glucosamine cap each capsule contains glucosamine sulph 500mg, vit E 8mg, vit C 50mg and Chondroitin cap each cap contains chondroitin sulphate sod 400mg, manganese 20mg, Glucosamine sulphate 250mg, vit E 4mg, vit C 25mg, chondroitin sulph 200mg, manganese sulph 10mg, Glucosamine sulphate 750mg, vit E 25mg, vit C 50mg, Glucosamine sulphate 400mg, vit E 8mg, vit C 50mg, chondroitin sulph 400mg, manganese sulph 20mg, Glucosamine sulphate 500mg, vit E 8mg, vit C 50mg, chondroitin sulph 400mg, manganese sulph 20mg, Glucosamine sulphate 750mg, methyl sulphonyl methane 250mg, Glucosamine sulphate 400mg, vit E 8mg, vit C 50mg, chondroitin sulph 400mg.

The generic manufacturing strategies of New Drug Glucosamine Combinations and the product-process of Taj Pharmaceuticals Ltd. are compared and collaborated using data from global Pharmaceuticals manufacturing plants in the UK(Newcastle), US, Korea, Italy, Germany and Japan.

The Indian company is eminent manufacturer, supplier and exporter of Glucosamine Combinations and various pharmaceuticals generics medicines in Tablets, capsules, Vial (injections), ampule, Strips and schedule packs etc.

The companies integrated research team facilitates the affordable production of the drug for even non-regulated markets of the world. i.e. Middle East, Thailand, Bangladesh etc.

The company is also involved in manufacturing of Active Ingredient of various pharmaceuticals finished formulations in IP /BP / USP grades for all markets.

The approvals bring a positive uplift in the share market and public perception for Pharmaceuticals investors.

About Taj Pharmaceutical Limited

Taj Pharmaceuticals Limited is a pharmaceutical company founded and based in India. The company manufactures pharmaceutical formulations and API for India and other countries of world. The company was established in 1995 as an enterprise and in 2004 became a public limited company. As per Mumbai pharmaxil and Chemixil association the company manufactures and exports to countries like Albania, Argentina, Austria, Chile and Iraq. In 1995 pharmaceuticals wing only has a schedule M certification for pharmaceuticals products manufacturing in India. Taj Pharmaceuticals established its manufacturing unit in Gujarat because of government policies in 1999 with WHO / GMP licence. The company in 2003 revived all the old manufacturing units and approached the **FDA Gujarat for 4000 new pharmaceuticals drug permissions** for the first time in India.

According to the Indian Trade Mark the company owns about **450 brands and 4600 generic** manufacturing permissions in India. According to the export data analysis the company was the largest exporter of generic medicines to the Europe and Middle East countries.
